

سازمان جهانی جامعه مدنی اروپا
European Global Civil Society Organization

Press Release

The press statement of the Europeans' Global Civil Society Organization regarding the latest terroristic attempts in Afghanistan:

The Sad Bestar maternity hospital based in Dasht-e-Barchi, Kabul is supported by international doctors which got assaulted by terrorists on May 12th, 2020.
(12/05/2020)

Slaughtering women and children is a true example of genocide and felony against humanity.

All terroristic attempts in Balkh and Laghman and also attacking a funeral in Nangerhar are all signs of the continuous violence and not committing to the humanity values and peace in Afghanistan.

Europeans' Global Civil Society Organization has condemned these crimes and has asked the Afghan government and the international societies to set their boundaries against terrorists and have a definition of these attempts to stop the violence and terrorism in Afghanistan.
